Dear Sir/Madam,

Regarding your request of clarification, we – SSSC would like to answer to clarify as per Attachment I as follows:

**2. Section B – Product Specification and Section F – Costs**

i. Review the response provided in Table B-1.1 and Table F-3.1. Revisit the information provided and reconcile the discrepancy. Where applicable, resubmit the updated table and supporting explanation. Confirm the unit of measurement whether the data reported in kg or MT.

**Answer:**

The production quantity reported in Table F-3.1 is the correct figure. We have revised Table B-1.1 accordingly to reconcile the discrepancy, as shown in the table below.

The discrepancy was mainly due to the classification of defective products in the production data previously reported in Table B-1.1. In the previous Table B-1.1, defective products were included in the GL production quantity, resulting in a higher reported production quantity for GL. In addition, certain other GI/PPGI products produced at the Bien Hoa factory were not fully included in the previously reported production data.

We have reviewed and reconciled the production data, and the figures reported in Table F-3.1 represent the correct production quantities**.** Table B-1.1 has been revised accordingly.

The unit of measurement for the production quantity reported in both tables is kilograms (kg).

Table B-1.1: Product Range Produced (Actual Production)

| **Description** | **Like Product** *(specify type of product & unit of measurement)* | **Other Products** *(specify type of product & unit of measurement)* |
|---|---|---|
| | Galvalume Steel (GL) | Galvanized Steel (GI), Pre-painted Galvanized Steel (PPGI), Pre-painted Galvalume Steel (PPGL) |
| POI Quarter 1 (Kg) | 100 | 100 |
| POI Quarter 2 (Kg) | 102 | 94 |
| POI Quarter 3 (Kg) | 101 | 61 |
| POI Quarter 4 (Kg) | 100 | 52 |
| **Total Actual Production** | **403** | **308** |

ii. Review responses provided for Sales in Domestic Market as submitted in Table B-2, Table C-7.1, Table C-7.2, and Table F-3.2. The IA observed discrepancies among

the four tables with data reported in Table B-2. Revisit the information provided and reconcile the discrepancies. Where applicable, resubmit the updated table(s) along with supporting explanation.

**Answer:**

The sales data reported in Table B-2 previously submitted did not deduct the sales returns from the domestic market. As a result, the sales figures reported in Table B-2 were higher than those reported in Tables C-7.1, C-7.2, and F-3.2.

The domestic sales returns were as follows:

- Year 1: [xxx]
- Year 2: [xxx]
- POI: [xxx]

We have reviewed and reconciled the sales data. The figures reported in Tables C-7.1, C-7.2, and F-3.2 are the correct figures, as they have taken into account the above sales returns.

Accordingly, Table B-2 has been revised to reconcile the discrepancy with the correct sales data reported in Tables C-7.1, C-7.2, and F-3.2.

The unit of measurement for the report in these tables are kilograms (kg).
